

Fall-Out

Fall-Out is a psychological thriller about protest -- violent, playful and sometimes idealistic protest -- at the construction of a new nuclear power station in north-west England. As the police and press explore what lies behind an apparent suicide, they uncover a small team apparently bent on mischief and anarchy. The impact on families and relationships are intertwined with the criminal investigations. The personal history and motives of the individual protesters are slowly revealed as they make increasingly desperate attempts to work together in manipulating public opinion.
